To

Highness the Maharaja of Mysore,

General & Revenue Departments,

BANGALORE.

Sir,

I, the undersigned, K. Rama Iyengar, Mechanic, desire to publish a Technical Journal, the need for which is very keenly felt by the awakening and progressive people and administrators alike, who as seekers after useful knowledge, I trust, would readily well-come any attempt at disseminating broad caste among them the truths of Science, Industry, Agriculture, Commerce and the truths of such other useful activities of life.

Though I find the current press regulation does not mean to restrict the Publication of any Scientific or Technical Literature, yet as a loyal citizen respect the Law of the country, I should like to solicit your favour of getting me permission from the Government to publish A Journal with a little fuller freedom than is usual hitherto.

Hence I pray you will be pleased to grant me a very early formal permission in anticipation of the Government according their sanction to your recommendations, so as to enable me to bring out the Journal in

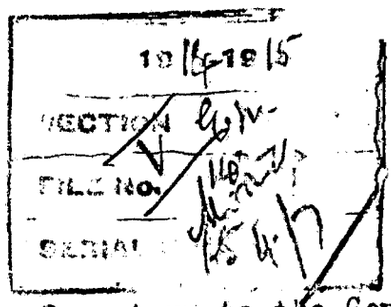
DIARY No. 128



Bangalore City.
Dated 2nd July 1915.

To,
The Secretary to the Government
of His Highness the Maharaja of Mysore,
General and Revenue Departments,
BANGALORE.

Sir,

In reply to your esteemed favour No. G 14543/G.M. 147-14 dated 28-6-1915 I beg to inform you that my editing a Journal is contemplated to be run on Encyclopaedic type, by making a re-survey of knowledge and human activity, enunciating the essential principles for an ideal of action and their application to the practice of every day life, with a comparative study to show us our efficiency in practice, prevailing at any time.

As such it may be necessary for me to resort to comment on the efficiency of the utility of our practice, as the stand-point of the actions and orders of Government stands only for utilitarianism. But I can assure you that it will not be on any biased strife-creative spirit of the news-monger, though open-minded -- conciliation-productive attitude of co-operative worker will be employed if need be by the signs of the times.

And I should think that in the common work of disseminating right knowledge and of its right application to our practice the individual claims to the privilege of expression will be readily welcomed.

So I trust the Government will be pleased to grant my -- prayer by confiding in its citizens thus making them all the more indebted to re/avow their pledge of loyalty.

Thanking you for your kind courtesies and attention and awaiting your further valued commands.

I beg to remain,
Sir,
Your most obedient servant.
K Rama Iyengar
